

HEXAGON FUSSY CUT

41" x 44"

USE THE FOLDY STUFF HEXAGON PATTERN

Use Instructions for — 8 row — WALL
Blocks Needed — 23

**PURCHASE PATTERN
FOR THIS PROJECT**

CUTTING

Cut from template plastic one hexagon using the lines before 5 and 6 (parallel lines on finished template will be 5 1/2" apart). Use this template to "center" the fussy-cut. Draw around it and cut.

NOTE: centers, sides, corner pieces and borders must be "lined" with muslin

Center Lining - cut 4 muslin strips 5 1/2' wide.

Cut 23 hexagon centers from these.

Strips - cut all strips 2" wide.

From these strips cut the following lengths:

Inner Row - (17 strips needed) - cut 69 each—3 1/2" - 5 1/4"

Outer Row - (20 strips needed) - cut 69 each—4 1/4" - 6"

Sides and Corners (cut from both fabric and muslin)

"A" — (ends) — 4

"B" (sides) — 8

"C&D" (corners) — 4

Border (cut from both fabric and muslin)

Cut 3" wide)

YARDAGES

Muslin — 3 1/2 yds.

Centers — (*See note below)

Inner Foldy Row — 1 1/8 yd.

Outer Foldy Row — 1 1/4 yd.

Edges & Corners — 1/2 yd.

Border — 1/2 yd.

*Yardage for Fussy Cutting

Extra fabric is needed to fussy cut. Select the motif and count the number you need and buy that amount of fabric. I buy a bit extra just to be safe. Use the 5 1/2" wide center hexagon template to determine how many you can get from the fabric. Placement is important — the pieces CANNOT overlap each other!!

Follow directions in pattern for general construction

ENJOY!
