

FOLDY PLACEMATS

(set of four)

Finished size , each - 13" x 17"

USE THE FOLDY STUFF LOG CABIN PATTERN

YARDAGES - (makes four)

*Muslin (includes liner) - 1 3/4 yds.

Centers - 3/8 yd.

Row 1 (inner row) - 1/4 yd.

Rows 2,3,4,5 - 1/2 yd EACH

Backing - 1 yd.

*NOTE: Center portion must include a "liner" to add weight since there is no folding in this area.. Lightweight batting may be used if preferred.

TRANSFERRING GRID:

HINT: When making multiples as with placemats, I like to make a 14" x 18" template to trace around.

Step 1 - Draw a 14" x 18" rectangle, centered, on the muslin base

Step 2 - Label each corner on the back of transfer paper. EX: UR for Upper Right
Cut transfer paper in half twice, creating four separate corner pieces.

Step 3 - Pin the corner transfer pieces on the muslin base, matching the outer lines.
(See Fig. 1) Transfer grid.

CONSTRUCTION:

Step 1 - Pin liner and center in place. Pin and stitch rows using the technique given in the Foldy Stuff pattern. Use long strips and trim to size at the end of each row. Baste last row in place

Step 2 - Trim muslin to original outline.

Step 3 - Cut backing 1/8" smaller than the trimmed top. With right sides together and lining up raw edges, stitch the backing to the top, using 1/2" seams. Leave a 6" opening on one side.

Step 4 - Turn right side out. Press. Hand-stitch opening.
Enjoy!

IMPORTANT: Prewash ALL fabrics and liners! Placemats suffer much laundering!

CUTTING— 4 each

Muslin base - 15" x 19"

Center and liner - 6 1/2" x 10 1/2"

Strips - cut 2" wide. Use long strips and cut to the length needed as stitching progresses.

FOR THIS PROJECT**

Enjoy!

HINT: If center seems too “floppy” a little machine quilting will stabilize it.
